

# I'll Walk Through The Fire With You

Suzi Quatro

I'll walk through the fire with you  
I'll dream every dream with you  
I'll look in your eyes, I'll tell you now lies

It's being too close, that's keep us so far apart  
we get burned by each other's light,  
but we share the same heart  
too many world, too many fights  
too many fear and sleepless night

I'll walk through the fire with you  
I'll dream every dream with you  
I'll look in your eyes, I'll tell you now lies  
I'll Live your desire with you  
I'll sing every song with you  
I'll right every wrong for you  
higher and higher, let's dance on the wire  
I'll walk through the fire with you

The truth is too hard but you don't like the game when i play it  
the truth is you hear what you want to hear  
and i had to hurt you to say it  
are we so different are we the same  
when pushe comes to shove  
we're both to blam

I'll walk through the fire with you  
I'll dream every dream with you  
I'll look in your eyes, I'll tell you now lies  
I'll Live your desire with you  
I'll sing every song with you  
I'll right every wrong for you  
higher and higher, let's dance on the wire  
I'll walk through the fire with you

It took so longe to understand  
and all you had to do was take my hand  
and everything we say, make me walk away  
don't want to hear it now  
but it's gotta be said, and how  
let's walk through the fire

I'll walk through the fire with you  
I'll dream every dream with you  
I'll look in your eyes, I'll tell you now lies  
I'll Live your desire with you  
I'll sing every song with you  
I'll right every wrong for you  
higher and higher, let's dance on the wire  
I'll walk through the fire with you
