

# Paralysed

Suzi Quatro

You asked if you could stay the night  
I could see right along that we could get it on I said yeah  
Gonna spin my wheel's all over this town  
If I catch you with your trousers down  
The stories you heard they're gonna be confirmed  
You won't believe your eyes  
'Cos you'll be paralysed  
Mechanised  
Sterilised  
You'll be paralysed  
Behind my cheek just a little mystique I said yeah  
When I call you up at home you better be alone I said yeah  
And I might only need you once a week  
I get my kicks from magazines  
The stories you heard they're gonna be confirmed  
You won't believe your eyes  
'Cos you'll be paralysed  
Mechanised  
Sterilised  
You'll be paralysed  
You asked if you could stay the night  
And just to be polite I said yeah  
I could see right along that we could get it on I said yeah  
Gonna spin my wheel's all over this town  
If I catch you with your trousers down  
The stories you heard they're gonna be confirmed  
You won't believe your eyes  
'Cos you'll be paralysed  
Mechanised  
Sterilised  
You'll be paralysed
