

# Whatever Love Is

Suzi Quatro

She is as pretty as a picture  
Cool as Jupiter  
She fears God  
And she reads scripture  
But it's hard to see, when you look at her

She can do anything she wants  
She can make anybody care

If you want true security  
I'm in love with you tonight  
Whatever love is

If you want me for all eternity  
I'm in love with you right now  
Whatever love is

She is a shining star  
I see her in the sky at night  
And she lost her innocence  
Somewhere out there in the frozen lights

She is as pretty as a picture  
Painted on a silver screen  
She's part of the madness  
Life has gifted me

She can do anything she wants  
She can make anybody stop and stare  
And care oh yeah
