

Calling (Lose My Mind)

Swedish House Mafia

Can we freeze karma and surrender our rights and wrongs?
Can we just for one night let the stars decide where we belong?
Maybe heaven right now is a devil or angel away
That won't change
Together we vow that our colors will sparkle the faith

And I will find you
I will find you
I will reach you
Or, I, I, I will lose my mind
Lose my mind
Lose my mind
Lose my mind
I will lose my mind
Lose my mind

Maybe heaven right now is a devil or angel away
That won't change
Together we vow that our colors will sparkle the faith

And I will find you
I will find you
I will reach you
Or I, I, I will lose my mind
I lose my mind
Will lose my mind
