

# Lollipop Man

Sweet

You go to the girl's school  
And I go to the boy's school  
Both separated by a lollipop man  
I must cross the street to  
Get around to meet you  
Therefore I have to pass a lollipop man

Lollipop man, there's a lollipop man  
Who stands in the middle of the street  
(Ain't he sweet)  
There's a lollipop man, yeah a lollipop man  
Hey, good golly there's a lollipop man

He carries out his duty  
Isn't he a cutie  
There in the middle with his lollipop pole  
Opposite the high school  
Right in front of my school  
He's so incredible  
He's really got soul

Lollipop man, lollipop man  
Lollipop man, lollipop man  
He won't let the traffic come between us  
We can be together very soon  
But he will make the traffic stop  
With his giant lollipop  
Looking just a little like a moon man

In a yellow rain coat  
And a pair of gum boots  
There in the midst of an incredible jam  
Any kind of weather  
Bringing us together  
There stands a funny little lollipop man

Lollipop man, there's a lollipop man  
Who stands in the middle of the street  
(Ain't he sweet)  
A lollipop man, there's a lollipop man  
Hey, good golly there's a lollipop man...
