

Everybody's Here

Swing Out Sister

Everybody's here together
Like a song already sung
Now the words don't belong to anyone anymore
Memories so alive
Dripped in through my mind
Nothing like a long-lost friend of mine
Somewhere lost in a dream
Now it's over (over)
Everybody's here but me (everybody's here)
(Everybody's here, ooh)
All I see is you
Whenever music plays into the night (music plays into the night
)
Close my eyes to forget the morning light (close my eyes, woo w
oo)
All alone
Tomorrow can take its time (ah, ah, ah, ah, ah, ah, ah, ah, ah)

Who knows what we'll find
Starring in a show
Love left behind
Somewhere lost in a dream
Now it's over (over, over, over)
Everybody's here but me
Tomorrow can take its time
Who knows what we'll find
Starring in a show
Love left behind
Somewhere lost in a dream
Now it's over (over, over, over)
Everybody's here but me (everybody's here)
(Everybody's here, woo woo)
(Everybody's here)
(Everybody's here)
