

Where Our Love Grows

Swing Out Sister

So now you say that you don't care
I loved you yesterday
Then threw it all away and left you standing there
Maybe I could find the love I left behind
Don't you know that true love will find a way?
Where our love grows

I'm gonna take you to a place that I know
We'll be together darlin' don't let me go
'Cause there's only the two of us
Where our love grows

And if you say it's in the past
I'll make it up to you
Do what I have to do
This time we'll make it last
Somewhere in my mind I know the sun will shine
Don't you know that true love is here to stay?
Where our love grows

Whattcha gonna do about it?
Where you gonna go without it?
Whattcha gonna say now we've found
Now that we've found a place
True love is here to stay
Where our love grows

I'm gonna take you to a place that I know
We'll be together darlin' don't let me go
'Cause there's only the two of us
Where our love grow
