

Chain

Switchblade Symphony

Chain, chain, chain.
Chain.
Chain, chain, chain.
Chain leave us alone.
Chain leave us alone.
Your shadow is drifting under the door,
your venom is trickling down the floor.
My tears i will give them my trust,
for when they hit you my friend your power will rust.
I can't break away from chain...fatal friend the chain.
You are wicked and confining to me
yet the lock you have created does have a key.
i can't break away from chain fatal friend the chain.
Leave, chain.
