

Like Suicide

Switched

Save me
'Cause I'm
Watching love just slip away
And the faults my own
I'm sinking so low
And the pain begins to grow
Begins to grow

And I've wasted time chasing you
('cause your love is like suicide)
Forget the hurt you put me through
('cause your love is like suicide)

Convincingly she calls to me
Her words so beautiful
And the darkness brings
Everything
That's good right out of me
Right out of me

And I've wasted time chasing you
('cause your love is like suicide)
Forget the hurt you put me through
('cause your love is like suicide)
Like suicide...

The times, they've changed
A brand new day
Watching love just slip (away)

And I've wasted time chasing you
('cause your love is like suicide)
Forget the hurt you put me through
('cause your love is like suicide)

And I've wasted time chasing you
('cause your love is like suicide)
Forget the hurt you put me through
('cause your love is like suicide)

Like suicide
With the hurt you put me through
Your love...
Like suicide
With the hurt you put me through
