

## Walk Away

Switched

I come wild with the wicked style that I bring  
Cought up like a drug deep in my thug stream  
She says she wants to get it on like a sex machine  
But hold on 'cause its my eyes that I can't believe  
And you waste my time with all your lies  
I'm denied 'cause it ain't my fault  
'Cause I'm losing control  
Hey I've heard it all before  
Before this war  
Its hard to believe this truth you speak  
Hey you've headed out the door  
Before I said walk away  
Another verse that I put my words in  
Rehearse tight beats with the groove that you thirst for  
All wrapped up on that leash you got me hanging from  
But its still my songs that you uh huh  
And you waste my time with all your lies  
I'm denied 'cause it ain't my fault  
'Cause I'm losing control  
Hey I've heard it all before  
Before this war its hard to believe this truth you speak  
Hey you've headed out the door before I said walk away  
Hey I've heard it all before  
Before this war  
Its hard to believe this truth you speak  
Hey you've headed out the door before I said walk away
