

## Skin and Bones

Switchfoot

The wasteland is mine, mine alone  
The desert comes alive, when no one is home  
Apocalyptic skies, burning gold  
I walk these empty miles, I can't find a soul

In my mind  
In my mind  
In my mind, I'm miles away  
I'm miles away

I'm not afraid to die, I'm afraid to be free  
I'm not afraid to doubt, I'm afraid to believe  
Don't believe the lies, of what you see  
Elevate your mind above these animal dreams

In my mind  
In my mind  
In my mind, I'm miles away  
I'm miles away

Flying overhead, these animal dreams  
Flying overhead, these animal dreams  
Flying overhead, these animal dreams  
Flying overhead, these animal dreams

In my mind  
In my mind  
In my mind  
In my mind
