Swollen Members

And it's a long way down  
It's a long way down  
It's such a long way down  
to the place where we started from

Yo, i'm still trying to figure out this Venus and mars thing  
But everytime I see you all I hear is a harp string  
We chilled last night  
I had to record this  
Listen to portishead  
Makin love in the forest  
Where not stuck in this orbit  
Its gonna work out for us  
So gorgeous like the voice of the woman gracing the chorus  
A newborn in its pure form  
Gentle and precious  
We connect on more than just mental  
Don't let this shit stress us  
I'm okay if you're okay  
I know it sounds cliché  
But we built this whole relationship from sand and clay  
Now we're so strong  
We've got a concrete bond  
And it completes so solid  
I had to write this song

And it's a long way down  
It's a long way down  
It's such a long way down  
to the place where we started

We met when we was young  
Two hearts that beat as one  
I knew it from the start  
Not till death do us part  
Nothing compares to you (keep blazin)  
I'm a fine young cannibal  
And you drive me crazy  
I know your looks attracts guys  
But that don't faze me  
Soul mate, make me feel like they got nothing on me  
Just to, taste your lips  
Plus your voice is calming  
I know its hard babe cause i'm always on tour  
But my love is fucking pure  
And that's for sure  
Been around the world  
Feel like I've covered whole earth's surface  
Stressed out to the point of askin if it's worth it  
Sometimes it trips me out kid  
Cause you're so perfect  
I gotta keep working, striving and building  
So we can get a house, have kids and grand children  
Till then I'll make sure you don't regret  
That you gave me another chance girl I won't forget!

It's a long way down

It's a long way down  
It's a long way down  
It's a long way down  
Listen to me man, make sure you love what you do  
Cause it's gonna take a time for anyone to get to the ultimate goal  
And As long as you love what your doing  
Doesn't matter how long it takes  
And when it finally does happen  
Try to remember how hard you worked to get there  
And appreciate that's shit  
Keep climbing  
BATTLEAXE

I'm shark where you swim  
Sharp as a dart in your skin  
We've been given a title that's not hard to defend  
Not just my partners my friends  
See this from start till the end  
With words that alter the wind  
Cause we assault with a pen  
And hit with the song  
No problems here we getting along  
Take turns from learnin from our mistakes  
Admit when we wrong  
And everybody knows how to fight  
To shows that are tight  
Appropriate strikes  
Nobody's sober tonight

Take a walk on the wild side  
Give me beats and I'll never die  
Ill hold your mind like a hypnotist  
Swing the watch into overdrive  
There's no rabbit or wand  
My habits are rippin a song  
The magic comes from the act of people waving their arms  
I'm as sane as I was  
Given and receiving the love  
Livin and breathing this stuff  
Battleaxe warriors - mad child prevail  
This is music for ya'll bars notes and scales

And it's a long way down  
It's a long way down  
It's such a long way down  
to the place where we started
