

One thought leads to another  
all i have in this life are my brothers  
stuck with me through thick and thin  
i never said we live this life without sin  
born in this world to live like a slave  
a one way ticket headed straight to your grave  
got my back cause i got yours  
a death grip like a pit bulls jaws  
instant death squad  
always there for you when you needed me  
never turn my back on my family  
we would keep it real just to survive  
swarming like killa beez around the hive  
come in full force cause i've got these  
if you think a creeping ya best to bring hercules  
don't try to test my crew ain't fake  
outline in chalk it's your body we'll make  
IDS IDS  
instant death squad  
IDS IDS - don't you ever fuck around  
we're one bound by blood  
we won't stray from our ways  
stay true till the day we die  
don't fuck around  
never get in our way  
i don't care what you say  
if you think that you can play you better think again  
all this rage i have in my  
on your face i'll set it free  
you're the next victim to be handled by me  
never get in our way i don't care what you say  
if you think that you can play you better think again  
all this rage i have in me  
on your face i'll set it free  
you're the next victim to be handled by me  
we're one bound in blood  
we won't stray from our ways  
stay true till the day we day  
don't fuck around we'll make you pay  
instant death squad
