

We Hate

Sworn Enemy

What I really hate is music like yours
Makes me wanna smash your head through a door
Kill yourself go die
It'd be a better place in my eyes
Must be some kind of sick joke
Fact you exist makes me wanna choke

We hate your music - we hate you too
We got our reasons for what we do
You can not hide - you stupid fucks
We really think your music sucks

Where did you come from, go back
You should be hung up like meat from a rack
I can't believe what has become
To a scene that I once loved

We hate your music - we hate you too
We got our reasons for what we do
You can not hide - you stupid fucks
We really think your music sucks

I'm burned out I tried my best
But I gotta get this off my chest
These cloned wanna-be's, fashion disasters
The best way to describe brings me laughter

You fake-ass motherfuckers
You wonder why we hate you
Your existence makes me sick

We hate your music - we hate you too
We hate your music - we hate you too
We hate
