

# Let's Make Music

SWV

Let's make music  
You're my DJ  
So let it replay  
Then make babies  
Spin me 'round like a record, baby  
Tonight I will be your favorite song  
Baby, play me all night long  
(Night long)  
Boy, let's make sweet love  
So, DJ, turn me up

I remember that night  
When you caught my eye  
I heard love's melody  
It blew my mind  
It sounded like bump and grind  
So [?]  
Like when I first heard summer rain fall  
The very first time

So climb your way up  
It's 'bout to go down  
(Down)  
We already sippin'  
(Sippin')  
It's time to get loud  
(Loud)  
Put your hands in the air  
(Air, air)  
Take me all the way there  
Nobody else here  
(Here)  
So party with me  
(Me)  
It's a quarter to 11  
(11)  
So what it's gonna be?  
(Be)  
Plus, I wanna fast forward to  
The part where it's me on you

Let's make music  
You're my DJ  
So let it replay  
Then make babies  
Spin me 'round like a record, baby  
Tonight I will be your favorite song  
Baby, play me all night long  
(Baby, play me all night long)  
Boy, let's make sweet love  
So, DJ, turn me up

Let's remember tonight  
Want you to keep me on your mind  
Like a melody  
On piano key  
Baby, give me your slow jam

(Slow jam)  
We'll be body rockin', knockin' boots  
And all that  
Like when I heard computer love  
For the very first time

So climb your way up  
It's 'bout to go down  
(Down)  
We already sippin'  
(Sippin')  
It's gonna get loud  
(Loud)  
Put your hands in the air  
(Air, air)  
Take me all the way there  
Nobody else here  
(Here)  
So party with me  
(Me)  
It's a quarter to 11  
(11)  
So what it's gonna be?  
(Be)  
Plus, I wanna fast forward to  
(Forward to)  
The part where it's me on you

Boy, let's make sweet love  
(Makin' love, baby, make love, so DJ turn up for me)  
So, DJ, turn me up
