

No Way

Sylar

There's no way, no way
We turn it all back now
No way, no way
If we can get through this, we can get through anything

If we can get through this, we can get through anything

I stay strong, and it's hard to do
The truth is that I'm just as scared as you are
We lose ourselves in the moment
Do you even notice?

It's always greener on the other side
Hiding under bright lights
All the pain I feel inside, yeah
You think I've got it made with the perfect life?
But when love's not in arm's reach nothing ever feels right
So I go through the motions
Who knows what the future holds, I know I can't avoid it
Wondering if I made the right choices
If I'm better off blocking out the noises

There's no way, no way
We turn it all back now
No way, no way
We can't let it all slip away, let it all crumble
There's no way, no way
If we can get through this, we can get through anything
There's no way, no way
We turn it all back now
No way, no no no way, no
No way, no no no way, no

Look, I'm barely ever home and I know it's rough
We're loving through the phone and it's not enough
I need to feel your touch when I'm feeling numb
I wanna breathe you in when it's said and done
Yeah, 'cause you're the one who always set me straight
Yeah, when I'm with you I always find my way
Yeah, for you and I I'll do whatever it takes
So that you'll never have to worry about promises made

Follow me through the undertow
Don't know how fast or where it goes
Keep your eyes open, don't let go
Promise you that I'll keep control
Not alone, but I'm lonely
So hard to keep it all going
It's crazy but I'm holding on
Holding on

There's no way, no way
We turn it all back now
No way, no way
We can't let it all slip away, let it all crumble
There's no way, no way
If we can get through this, we can get through anything

There's no way, no way
We turn it all back now
No way, no no no way, no
No way, no no no way, no

Through it all at the end
We might bend but we'll never break
I know we have to keep these walls together
Standing tall through all the pressure
Through it all at the end
We might bend but we'll never break
And all these sacrifices make you stronger
Even through it all
We might bend but we'll never break

No way, no way
We turn it all back now
No way, no way
We can't let it all slip away, let it all crumble
There's no way, no way
If we can get through this, we can get through anything
There's no way, no way
We turn it all back now
No way, no no no way, no
No way, no no no way, no
No way, no no no way, no
No way, no no no way
We turn it all back now
