

## Leech

## Sylosis

Acid slaver burns through bone  
Dissected and reanimated  
Lips are sewn  
Stitched to mute the outcome  
Block the exit wounds

See through the face of degradation  
Beyond what hides on the surface  
Numb the ache  
Dull the light and sound  
It's dragging me down

This isn't war  
For this is silent  
Your pointed teeth  
Left leeches marks in me  
And I can feel it burning  
Forever under my skin

Dissected into a thousand pieces  
Corroding from the inside  
Piercing the flesh  
And burrowed deep  
A host forever asleep

See through the face of degradation  
Beyond what hides on the surface  
Numb the ache  
Dull the light and sound  
It's dragging me down

This isn't war  
For this is silent  
Your pointed teeth  
Left leeches marks in me  
And I can feel it burning  
Forever under my skin

The remnants of your soul depart

The cold frost of winter soothes the sting  
Forever the leech is king
