

It never threw me like this  
ignored  
A head buried in the sand  
to retort.

If it ever came down  
To be a man  
Or break my fall

Peel back the skin again  
So I know.

And I wait, and I wait, to live this damn thing out  
And I wait, and I wait, to be the thing I never was before.

A head case  
I can't refrain  
All of my flaws

Rebound  
Or rationalize  
Just to stall

Well, I'm well aware  
And I think you care  
From your easy chair

Remission is all  
that I can't afford.

And I wait, and I wait, to live this damn thing out  
And I wait, and I wait, to be the thing I never was  
And I wait, and I wait, to live this damn thing out  
And I wait, and I wait, to be the thing I never was before.

And I wait, and I wait, to live this damn thing out  
And I wait, and I wait, to be the thing I never was  
And I wait, and I wait, to live this damn thing out  
And I wait, and I wait, to be the thing I never was before.
