

## Infected

Systematic

Down slowly, I take your sight  
Blind you, its so divine  
You burn, burn  
All the bridges to me they're all damaged you see  
And when you learn I'm your worst enemy  
I plant the bad seed  
Did you notice you can't control this?  
I creep up inside to take yours  
How does it feel to be infected with me?  
You're holding onto your life  
Knowing you've become all mine  
You burn, burn, burn  
I do what I please  
I plant the bad seed
