

Pain reliever  
Fever reducer  
Ten to the head  
Does that make me a loser?  
I took nine shots of that fifth  
Gone gone gone  
Eight hits of that spliff  
Gone I got  
Seven reasons why I'm not sure of six things  
On my mind and I'm comin' off this high five

Love me for nothing  
Don't even love me for me  
Love me for nothing  
Don't even love me for free

Second verse on my third beer  
Kill all these voices that I feel I hear  
Mob to the bride, I'm  
Keeping the faith, I'm  
Holding the fight, A  
Hell of a night  
It's a hell of a night

Love me for nothing  
Don't even love me for me  
Love me for nothing  
Don't even love me for free

Only when I'm alone  
Only when I was on one  
(one one one one)  
Live like I'm living today  
Live like today was my last one  
(one one one one)

Falling from this high  
(falling falling)  
From this high  
(one one one one)

Love me for nothing  
Don't even love me for me  
Love me for nothing  
Don't even love me for free

All that I pray  
I pray when I die, I die real

All that I pray  
I pray when I die, I die real
