

Big Picture

T.I.

Hey it dawned on me and
I see the big picture I know
On everything I love I'm the shit and I know
To do it big I gotta keep 'em out my business I know
Because these niggas like to gossip like the bitches I know
I finally get it now
I see the big picture I know
What everything I love I'm the shit and I know
I run this city, wish that wasn't my position I know
These niggas softer than the pussies and the bitches I know

Aye
What it is big dog?
I know I'm the shit cause I bounce back
Totally recover from a pit fall
Don't make you a fighter just because you got your fist balled
Its get right and get paid or good night and get lost
Bitches talk big shit even when my dick soft
Everyday my birthday, they just wanna get they licks off
Rocket ship lift off, come sit on my launch pad
G-5, mile high, group sex, jet lag
Boullion, checks, cash, millions, just stash
Even if you hate me, surely you respect that
Yeah, you're now rockin' with the best dad
Chicks see me I be like "look at T.I. with his zig-zags"
Wishin' they could take a ride on my mustache
Or maybe see the inside of my plush pad
But I must pass, I know what you on homie
Up late one night early morning and hey, it dawned on me and

I see the big picture I know
On everything I love I'm the shit and I know
To do it big I gotta keep 'em out my business I know
Because these niggas like to gossip like the bitches I know
I finally get it now
I see the big picture I know
What everything I love I'm the shit and I know
I run this city, wish that wasn't my position I know
These niggas softer than the pussies and the bitches I know

Love my motherfuckin' life
I'm so motherfuckin' tight
They say "he think he the shit"
I say "you motherfuckin' right"
Teach a motherfuckin' dyke to learn to love suckin' pipe
Buses, cars, trucks and bikes in my yard
Up the price of my performance
Now I'm goin' for a half a mil' a night
Quarter million just to party
If you gossip get it right
Niggas shiest
But I know somethin' if I put end a nigga life
Its gonna begin a nigga trip to god and end a nigga life
Man I keep it one hundred, one thousand to be precise
If you round me frontin' go find a mountain and take a hike
Yeah I know you set your sights on me, tryin' to get stripes
Homie look smaller but feel bigger in real life, don't he?

I'm all that and more, ain't nothin' bout the hype for me
I'm sharing life moments, ain't nobody write for me
You a one trick pony, I'm quadruple threat homie
Up late four in the mornin' and hey, it dawned on me and

I see the big picture I know
On everything I love I'm the shit and I know
To do it big I gotta keep 'em out my business I know
Because these niggas like to gossip like the bitches I know
I finally get it now
I see the big picture I know
What everything I love I'm the shit and I know
I run this city, wish that wasn't my position I know
These niggas softer than the pussies and the bitches I know

I'm clearly somethin' special, officially I'm the best who
Did it in my city and even in the U.S, you
Must agree, they cant fuck with me, I'ma beast unless you,
Hatin', you ain't gotta be sneezin' for me to bless you
If the records don't get you, I bet the movie will get you
Akoo don't seem to catch your attention, I'ma impress you
With swagger long term, Hollywood bitches to tag along
Groupies just imagine on, they know what I'm braggin' on
I gotta message you can pass along, tell a friend
We getting long paper jay, we made it back from hell again
And knockin' on heaven's door, residing there forever more
Promoters, this worth every cent, you couldn't buy a better tour
And you are forced to admire the messiah
Expressin' your desire, you're just preachin' to the choir
The nation has it wired to hear your majesty, sire
I'm flyin' high up one mornin' and hey, it dawned on me and

I see the big picture I know
On everything I love I'm the shit and I know
To do it big I gotta keep 'em out my business I know
Because these niggas like to gossip like the bitches I know
I finally get it now
I see the big picture I know
What everything I love I'm the shit and I know
I run this city, wish that wasn't my position I know
These niggas softer than the pussies and the bitches I know
