

## Off U

T. Mills

Nothing more than I hate than some shit that's not true  
Probably went and tell your friends that I'm sad I lost you  
I used be on  
But now I'm off you  
I used be on  
But now I'm off you

Every time I'm off the drink  
I ain't thinkin' bout you  
Yeah, I got a new bitch I'm just glad it's not you  
I used to be on  
But now I'm off you  
I used to be on  
But now I'm off you

Baby, tell me everything that you think about late night  
When you laying down and the feeling ain't right  
And you know you ain't mine  
And you change time  
And you can't save face  
I ain't in the same place, nah  
I don't miss the old you, I don't even know you  
Try to come back now, I already told you  
Put me through some shit, there's some more you're gonna go through  
Now you're old news [x3]  
Now I'm off you  
My new bitch is fucking awesome  
Fuck her in the car often  
Driving around the 101 and I'm smoking weed coughing  
Hoping I don't get pulled over by the law then  
We could get it poppin'  
Yeah I get it poppin'  
I just spent like twenty thousand shoppin'  
And the lights are blinding  
Man I think I gotta stop them  
Fuck them old hoes cause they know we off them

Nothing more than I hate than some shit that's not true  
Probably went and tell your friends that I'm sad I lost you  
I used to be on but now I'm off u  
I used to be on but now I'm off u  
Everytime I'm off to drink I ain't thinking 'bout you  
Yeah I got a new bitch, I'm just glad it's not you  
And I used to be on but now I'm off u  
I used to be on but now I'm off u

(Used to be on but now I'm off u  
Used to be on but now I'm off u  
Used to be on, on

Used to be on but now I'm off u  
Used to be on but now I'm off u  
Used to be on, used to be on  
Used to be on but now I'm off u)

Baby, I thought that you'd have my babies by now  
I heard you drive a mercedes now

It's crazy how it all worked out, it's crazy how it all went down  
Oh you thought that I'd be hurting, no  
Yeah you go, always putting on a show  
Don't let that fine ass hit the door  
Think that I still care but I don't  
I've been fucked up and I've been thinking about everything that I'd be doing  
Going out every weekend and all the girls I'm texting  
And how I make a mess of everything with all of my exes  
I don't make excuses girl, I just go and get it  
If you ever disrespect me baby, you gonna regret it  
Oh I'm off u now but you just can't forget it  
You never got your happy ending

Nothing more than I hate than some shit that's not true  
Probably went and tell your friends that I'm sad I lost you  
Yeah I used to be on but now I'm off u  
I used to be on but now I'm off u  
Every time I'm off to drink I ain't thinking 'bout you  
Yeah I got a new bitch, I'm just glad it's not you  
I used to be on but now I'm off u
