

Pushing every limit would you pray for me
Living like our time is almost up
Its late so now I'm thinking you should stay with me
Looking at you, you look like the one, one

Look like the one for me
One for me
The one, one
[x3]

I'm in the back
You in the front
Gripping your thighs
Gripping a blunt

Money keep pouring out
I want you badly
I call you momma
You call me daddy

I think you the one for me you get it done for me (yeah)
And all of my habits just stopped being fun for me (yeah)
Can't leave you alone plus you love the company (yeah)
I ain't gonna say it again baby come with me

Pushing every limit would you pray for me
Living like our time is almost up
It's late so now I'm thinking you should stay with me
Looking at you, you look like the one

Look like the one for me
One for me
The one, one
[x7]

I ain't gonna judge
You know I'm no saint
So do what you want
Fuck what they think

I'm biting your neck
I love how you taste
I'm out of breath
It's the thrill of the chase

I think you the one for me you get it done for me (yeah)
And all of my habits just stopped being fun for me (yeah)
Can't leave you alone plus you love the company (yeah)
I ain't gonna say it again you the one for me

You the one

Look like the one for me
One for me
The one, one
[x7]
