

## Drownin' On Dry Land

Tab Benoit

I'm going down. My nose is in the sand  
I'm going down, down, baby. My nose is in the sand  
A cloud of dust just came over me  
And I think I'm drowning on dry land.

You know, my father told me, son don't rush to be a man  
You know, my father told me, son don't you rush to be a man  
But I went ahead on, and now I think I'm drowning on dry land.

You know my mother told me the story  
About that li'l dog that couldn't see too well  
He was crossing a railroad track one day  
When the train cut off a part of his tail  
He turned around but never looked up  
Just to peep over the rail  
And she said he lost his whole head  
Trying to find a little piece of tail

That's why I'm going down. My nose is in the sand  
A cloud of dust just came over me  
And now I think I'm drowning on dry land.
