

# God Can You Hear Me

Tait

I've been here before  
It's hard to ignore  
I'm so used to fighting  
The same old wars

Oh what do you see when your looking at me  
Have I taken You for granted  
I can't afford this pain anymore  
Won't You help me understand it

God can You hear me  
I need You here tonight  
I'm tired of pretending that everything's alright  
And I know, I know that You hold tomorrow  
But I need You here tonight

I want to feel  
I need something real  
I want to go closer to You  
I lay down my will

Oh this human disease it's killing me  
Tell me have I been left stranded  
I can't ignore this pain anymore  
Won't You help me understand it

Say won't You say that  
You'll carry me  
Carry me through the storm  
Stay  
Won't You stay  
Till the morning comes  
Morning comes  
Just stay
