

Can't Stop Thinking 'bout You

Take 6

Everyday you see the sun has passed around you
But you never stop to hear my song
Late at night I send the stars to shine above you
But morning comes then you're gone

If you can't be sure of the air you breathe
Then you can depend on me

Because I can't stop thinking 'bout you
You mean the world to me, oh
A friend to the end I'll always be true
You can depend on me
Cause I just can't stop thinking 'bout you, oh
I'm thinking 'bout you

Now, I've seen the rain in spring to start the flowers blooming
There's nothing that I wouldn't do for you
Open your eyes, you'll see Heaven is awaiting
I'll give the world to get you through

You can't be sure of the air you breathe
You can depend on me

Cause I can't stop thinking 'bout you
You mean the world to me, oh
A friend to the end I'll always be true
You can depend on me
Cause I just can't stop
Oh no, no, no, no, thinking 'bout you

I can't stop thinking 'bout you
You mean the world to me, oh
A friend to the end I'll always be true
You can depend on me

I can't stop thinking 'bout you
You mean the world to me, oh
A friend to the end I'll always be true
You can depend on me

I can't stop thinking 'bout you
You mean the world to me, oh
A friend to the end I'll always be true
You can depend on me
