

# Gold Mine

Take 6

Losing my mind  
Climbing the walls not even knowing  
What it was I had to find  
Wondering if I ever would

There had to be  
Some kind of something or someone  
Who might bring out the best in me  
Only the Greatest ever could  
You (then You) caught my eye  
With a glow too wonderful to ignore  
(Better sight) I took  
(In Your light) One look  
(Shining down) Through Heaven's door

I never thought I would ever  
Stumble out of darkness and prize the view  
But this time I found a Gold Mine in You (in You)

This is too much  
Hard to believe my life is changing, Lord  
But now I've got Your touch  
I gotta keep passin' it along  
Down (deep down) in my heart  
I knew there'd be someone like You someday  
(On the move) Hear me  
(Knowing You've) Steer me  
(Chosen me) Just lead the way

I never thought I would ever  
Stumble out of darkness and prize the view  
But this time I found a Gold Mine in You (in You)

... I have to admit  
I never thought I would ever  
Chance upon a love I could hold on to  
But this time I found a Gold Mine in You  
I found a treasure (no one can measure)  
But it's true  
I can't begin to calculate my wealth  
And I never thought I would ever  
Stumble out of darkness and prize the view  
But this time (I found) I found You  
(And finders are keepers)

I never thought I would ever  
Chance upon a love I could hold on to  
I never thought I would ever  
Spot a ray of hope in the residue  
I never thought I would ever  
Find another prospect to interview  
But this time I found a Gold Mine in You  
I have to admit. I never.
