

# All Your Life

Takida

You've been falling all your life  
Struggling with yourself, still burns

We fall  
We fall  
We fall  
We fall

We fall  
We fall  
We fall  
We fall

Keep on telling me all your lies  
It's alright  
Tomorrow I will pray for your soul  
Now you started to wonder  
You can't even breathe  
Without your poison  
Blossoms  
Spirals in your eyes

You've been falling all your life  
Struggling with yourself, still burns  
Falling all your life

Stony thunder head  
And the deep threat  
Cries out your descent to hell  
Show me your mad man  
You play me for a fool  
Got lost in your mind games  
Yeah, I was a tool  
Become the connected  
This is on you

You've been falling all your life  
Struggling with yourself, still burns  
Falling all your life  
The blood - Sharpen your knife  
Your heaven - cannot burn  
You've been falling all your life

We fall  
We fall

You've been falling all your life  
Struggling with yourself, still burns  
Falling all your life  
The blood - Sharpen your knife  
Your heaven - cannot burn  
You've been falling all your life
