

Don't Forget About Me

Takida

I was running up Berry hill
When I saw her standing there
A memory follow us now
And it will last forever

I danced with you all night
We were lovers on the way
The intoxication kept our minds together

We went down to the lake
Out in the woods
And on to the other side

We went down to the lake
out in the woods to hide

Tomorrow the summer ends
Tonight we'll be more than friends
Don't forget about me
Keep calling, calling your name

Will I see you again
Your eyes making me pretend
Want you to feel like I feel
In the morning we'll be okay

Take you by the hand
I don't want to let you go
The lights are fading out
But we don't have to go

Remember what I have
And you remind me what I know
The next few hours now
I just want to be alone

We go down to the lake
Out in the woods
And on too the other side

We go down to the lake
Out in the woods to hide, to hide

Tomorrow the summer ends
Tonight we'll be more than friends
Don't forget about me
Keep calling, calling your name

Will I see you again
Your eyes making me pretend
Want you to feel like I feel
In the morning we'll be okay

Hold me now, don't say goodbye
- into the night
Hold me now, don't say goodbye
You and I will never die

Here's the reason why

Tomorrow the summer ends
Tonight we'll be more than friends
Don't forget about me
Keep calling, calling your name

Tomorrow the summer ends
Tonight we'll be more than friends
Don't forget about me
Keep calling your name

Will I see you again
Your eyes making me pretended
Want you to feel like I feel
In the morning we'll be okey
Will you be sane
