

## Final Day

Takida

I haven't been able for a while  
Can't get the words out of my mouth  
I need you to know something now  
And I have been sick for some time  
Still don't know what it is, I'm terrified  
There's some kind of monster in my mind

You are scared right now

And I am terrified  
I am terrified

He keeps saying it's time  
To say farewell to your old life  
You know it's hard to leave your pain  
And to breathe right  
I just wanna die  
And it echoes all around me  
Sounds like this could be  
Your final day

There used to be a reason why I'm here  
My heart knows it's you but my mind is unfair  
I am far away now  
And the voice is calling me home

I am scared right now  
And you are terrified  
You are terrified

He keeps saying it's time  
To say farewell to your old life  
You know it's hard to leave your pain  
And to breathe right  
I just wanna die  
And it echoes all around me  
Sounds like this could be  
Your final day

He keeps saying it's time  
To say farewell to your old life  
You know it's hard to leave your pain  
And to breathe right  
I just wanna die  
And it echoes all around me  
Sounds like this could be  
Your final day  
This could be  
Your final day
