

Flowerchild

Takida

Can we get a little higher before they
Drag us down with the ropes
We don't need to throw another vulture
Some fresh meat from our souls

Think of what we're fighting for
Step into the light
How can wrong be so right

We are living on the inside
And we are maybe dying on the outside
So what, this is how we wanna play

We belong in the valley of rages
Where the earth grows wild
Taste a real fantasy, it's delicious
Come join us flowerchild

Think of what we're living for
Society, our friends
Who are with us til the end, hey

We are living on the inside
And we are maybe dying on the outside
So what, this is how we wanna play
(This is how we're playing)
Come friend, my monster be a demon
Let go, this will be the right time
Eyes shut and we find the beauty of stray

Join us flowerchild
To the world
Join us flowerchild
To the world
To the world

We are living on the inside and
We are dying on the outside
So what, this is how we wanna play
Come friend, my monster be a demon
Let go, this will be the right time
eyes shut and we find the beauty of stray, stray

Go on
We are

We are living in the inside
And we are dying on the outside
This is how we wanna play
