

## See The Better Days

Takida

We are gonna make it, we are on our own  
You cannot fake it, we have to grow

See the better days  
See the better days

You've come for the rescue, we don't need it now  
You think life is an issue, but we rather die

See the better days  
See the better days  
See the better days  
See the better days ( now. )

I believe in a sequel, are we really alone  
I believe in a twice in a lifetime  
You're not alone

See the better days 6x...
