You're waiting

So this is what we're up against? So this is what we're up against? Face it This is what we're up, up against? You're waiting And every minute is a minute away Face it This is what we're up, up against? You're waiting And every minute is a minute away Regrets always work Excuses are better A practical exchange Or a trade for the truth But you know it never held up (but you know it never held up) Pretend that it still could now Face it This is what we're up, up against? You're waiting And every minute is a minute away This is what we're up, up against? You're waiting And every minute is a minute away We're turning our clocks back Just never ourselves So go with the flow Just relax (just relax) You never feel the jet lag Unless you're trying to fit in Face it This is what we're up, up against? You're waiting And every minute is a minute away Face it This is what we're up, up against? You're waiting And every minute is a minute away (every minute is a minute away) Less is more except when it comes to mistakes How long is long, that depends how long it takes Less is more except when it comes to mistakes How long is long, that depends how long it takes The years, not months Not days, your blackout memory The years, not months Not days, your blackout memory This is what we're up, up against?

And every minute is a minute away
Face it
This is what we're up, up against?
You're waiting
And every minute is a minute away
(every minute is a minute away)
Every minute is a minute
And a minute and a minute away
