

Skin On Skin

Talisman

Baby I'm not complainin' but I think I must attest
U just aint the devil I used 2 know, slippin out that
tight blue dress
Now I know I aint no little boy but I still got lots of
juice
I'm still down with your lip smackin ways & little wild
abuse

I'd rather die than be without u
No real surprise, what I wouldn't do
Turn out the lights it's time again
I'm digging your reaction, skin on skin

I'm a monkey on your see saw, like a doggy on a swing
Girl I don't know what I'm saying cuz it just don't
mean a thing

Not much on flowers & kisses
I'm more 4 unadulterated
U know how 2 fill my wishes
We're now just starting, baby

Tell me, are u feeling lucky, now I'm feeling kinda
spent
My libido's sayin what the hell, can we do it all
again?
