You slept on my couch before
I gave you some good love every night
I made sure you had everything that you wanted
Now this new chick you on
She'll do right, she'll do right
You asked for gas, money, 'cause you never had your own
You on this new fish, like I ain't put you on

I ain't tripping, don't phase me now
I ain't tripping, don't phase me now
I ain't tripping, don't phase me now
I ain't tripping, don't phase me now

There's something about you that I just can't explain
Got me all in my feelings
While you're playing this game
