

And Then We Heard The Thunder

Tank

Tornado's a coming mother nature's main event storm chasers running
To the scene of the accident a car lies broken at the side of the road
Someone trapped inside but who will know a gas line's broke, it's on fire
It will explode debris falls from the sky the sheer force, the sheer power
It mystifies we all have a time to die but it's time to say goodbye...
And then we heard the thunder so loud it shook the ground
And then we heard the thunder such an awesome sound
The wreck is still burning Detroit metal, twisted and bent
There's no point returning as those inside are heaven sent
We just stand and watch and cry with remorse, we cower
Under dangerous skies we all have a time to die but it's time to say goodbye...
And then we heard the thunder so loud it shook the ground
And then we heard the thunder such an awesome sound
