

Don't Give Up

Tank

You better work girl, work girl, work girl
You better work girl, work girl, work girl

You ain't never had nobody give it to you like I do
Cause everytime I'm in it I'm a get it till your legs can't move
Got you shaking like a crap game
Throwing you all up against the wall
You gone leave with hella back-pain
Stay with it
I ain't finished

Cause I'm still trying to shake the headboard a few more positions to go
Got a little more than what you asked for
And I'm still ready to go
I'm a push your body to the limit
We gone both fall out when we finished
I need some more time cause I can't get enough
So don't give up

You better work girl, work girl, work girl
(Don't give up)
You better work girl, work girl, work girl

I see you ain't never had to put no overtime
(No time)
I know that you're cool
But what we're gonna do about mine
We need to try a new position Two position
(Hold up)
The one I got you in is killing your friend
I ain't trying to make you give in
But baby I'm still on ten

Cause I'm still trying to shake the headboard a few more positions to go
Got a little more than what you asked for
And I'm still ready to go
I'm a push your body to the limit
We gone both fall out when we finished
I need some more time cause I can't get enough
So don't give up

You better work girl, work girl, work girl
(Don't give up)
You better work girl, work girl, work girl

I'm probably showing out
I'm on my superman
Real promotional
I'm tryin' to win a fan
And every time I'll be like the first time
Like when I got you high off the first line
It's a long ride
Buckle up
Drivin' off road
Cause I like it rough
I know you gotta little life in you left
But you gone probably need some help

Cause I'm still trying to shake the headboard
A few more positions to go
Got a little more than what you asked for
And I'm still ready to go
I'm a push your body to the limit
We gone both fall out when we finished
I need some more time cause I can't get enough
So don't give up

You better work girl, work girl, work girl
(Lemme see you put 'em work)
(Don't give up)
(Lemme see you put 'em work)
You better work girl, work girl, work girl
(Lemme see you put 'em work)
