

## Heavy Artillery

Tank

Yeah It's breaking out all over the world and like flies they're dropping  
Invading here would be absurd but once they start there's no stopping  
There's no use holding your head in your hands it won't go away  
Soon you'll wake up and you'll be a man that's what the handbook says these are your orders, you must obey  
Heavy Artillery, Heavy Artillery, Heavy Artillery  
Too bad, too bad they got what they wanted without even trying  
I'm so glad, so glad the signals got busted without someone dying  
There's no use holding your head in your hands it won't go away  
Soon you'll wake up and you'll be a man that's what the handbook says, these are your orders, you must obey
