

# Love Song

Tank

How about a little Aaliyah,  
I can't get this Floetry out of my head.  
And I don't think you can either,  
When we speak it's like some poetry,  
How could I ever forget.

You're saying  
That when you hear that song it turns your body up.  
And I'm just like you, baby,  
Voices sound so soft, we ain't gotta turn them off.

Can we live inside this love song?  
Lay in the melody,  
These words make you feel at home.  
Cause we're living in a love song,  
As good as it will ever be,  
Let the beat go on and on,  
Living in our love song.

Rock the boat, rock the boat,  
Change positions, new positions,  
Hold that bottom up in the air.  
Living in our love song.  
Baby, imma be the DJ,  
I'm gonna let the record spin round in your head  
And you're gonna have me on replay, girl  
Rewinding this moment so that way I will never forget

You saying  
That when you hear that song it turns your body up.  
And I'm just like you, baby,  
Voices sound so soft, we ain't gotta turn them off.

Can we live inside this love song?  
Lay in the melody,  
These words make you feel at home.  
Cause we're living in a love song,  
As good as it will ever be,  
Let the beat go on and on,  
Living in our love song.

Bass beating like that,  
Kiss you on the face,  
Hit you from the back.  
In between your waist,  
Don't know how to act.  
Girl, that's my type of love song.  
Pulling on your hair,  
Legs start to shake,  
Till I put em in the air.  
Girl, you're looking at the man right here,  
So let's just live inside this love song.

Lay in the melody,  
These words make you feel at home.  
Cause we're living in a love song,  
As good as it will ever be,

Let the beat go on and on,  
Living in our love song.

Rock the boat, rock the boat,  
Change positions, new positions,  
Hold that bottom up in the air.  
How about a little Aaliyah?  
Won't you come over?

Living in a love song
