

# Not The Same

Tanlines

I always feel fine when I see your eyes  
You always feel wild when I'm in your mind  
Waves wash over backwards, forwards always

We're not the same, we're not the same  
We're not the same, we're not the same  
Tell everyone we haven't changed  
Tell everyone we're not the same

We are standing face to face two shadows in the light  
We're both seeing other people see in black and white

We're not the same, we're not the same  
We're not the same, we're not the same  
Tell everyone we haven't changed  
Tell everyone we're not the same

You are so intent on being everything, everything  
And you are so intent on pleasing everyone, everyone

We're not the same, we're not the same  
We're not the same, we're not the same  
Tell everyone we haven't changed  
Tell everyone we're not the same
