

Breathe Around You

Tanya Donelly

I live underwater and you live on the moon
You can't breathe around me and I can't breathe around you
We start and my heart's in traction
I'm living, I'm living, I'm dying for you

Four, three, two, one, breathe
Your love is dark inside of me
Your love is dark inside of me

Everything in here is all wrong
I don't know some unidentifiable stink
And everything you say is satin-lined
I don't know, is that the way you animals think?

I am underwater howling at the moon
You can't breathe around me, you can't breathe around me
You can't breathe around me and I can't breathe around you

Your love is dark inside of me
Your love is dark inside of me

Four, three, two, one, breathe
So get back in your ride and drive, drive, drive
Four, three, two, one, breathe
