We started out to walk through life hand and hand together
We ran into some trouble on the highway to forever
We took our turn that turned out wrong woke to find the feeling
gone

But I know that we'll recover if we hold onto each other Let's take another run at it baby take another run at our love Let's have a little fun with it darlin' it don't have to be so serious

Don't tell me it's over we can pick the pieces up Let's take another run take another run at our love Sometimes the mountain looks so high when you're standing at the e bottom

But once you've made it to the top you can't see the problem Right now it hurts a little bit but we've never been the kind to quit

And I know we'll make it over we'll be rolling in the clover Let's take another run at it baby...

If we walk away and say we tried

We'll never know what's on the other side

Let's take another run at it baby...

Let's take another run at it baby
