

You've Got Me To Hold On To

Tanya Tucker

Don't it make life just a little more special
Knowin' you've got someone who cares
You won't ever have to be lonely
Always has somebody there

Don't it make everything a little bit easier
Knowin' you have someone like me
A hand to take you to the light
When it gets a little bit too dark to see
That's when I like to stop and remind you

You've got me to hold on to, baby
(You've got me to hold on to, you've got me)
Oh, you've got me to hold on to
(You've got me to hold on to, you've got me)

Yes, and don't it make every chance worth taking
Even when you try and fail
Don't it make all the pain worth aching
Look around and find somebody there

Oh, and don't it make everything a little bit easier
Knowin' you have someone like me
A hand to take you to the light
When it gets a little bit too dark to see
That's when I like to stop and remind you

You've got me to hold on to, baby
(You've got me to hold on to, you've got me)
Oh, you've got me to hold on to
(You've got me to hold on to, you've got me)
I've got you, I've got you

High and low, happy or sad
You know I'm gonna be right there
Sharin' your smiles, dryin' your eyes
Anytime and anywhere

'Cause you've got me to hold on to
(You've got me to hold on to, you've got me to hold on to)
Oh, you've got me to hold on to, baby
(You've got me to hold on to, you've got me to hold on to)

Oh, you've got me to hold on to, honey
(You've got me to hold on to, you've got me to hold on to)
You've got me
(You've got me to hold)
