

Sound Control

Taproot

it's a whole as a sound control
it's a whole as a sound control
you know that i'm a fugitive
that's how it is
a funky, freaked out, twisted, lyricistical, mystical energy
when I'm flowin', i'm flowin' to blow it up
because I'm like gravy
i got the sauce to get it done right
and achieve all there is that i want to be
individuality about myself
remainin' true and free and helpin' others in need
ain't no greed conquerin' my destiny
i live my life around the homeopathic, schizophrenical, energetical
vocal manner is gettin' phatter and phatter
served on a platter with a big old fat ass side of metaphysical culture
i've controled my past and i control my future
don't see my life through tunnel vision
with horizon's expanded with an open mind
clear to those tidbits of knowledge (pimp ass)
you know I like to kick out that flowin' shit
make you get up and groove so loose
and let your inner child play out loud
and experience the only ways to learn and enjoy those times
seem so and few and far between, right?
take advantage with that smile i've seen
with that gold toothed grin when we win over the floor
like before me with my bro to my right side
he's the man churnin' out that collaborated rhythm
to make those clothes fill up with sweat
the girls are wet
i control my future
i've controlled my past
try to keep my head clear to achieve my goals at last
it's a whole as a sound control (whole)
it's a whole as a sound control (whole)
it's a whole as a sound control, self control
i control my future
i've controlled my past
try to keep my head clear to achieve my goals at last
you know that I'm a fugitive
that's how it is
a funky, freaked out, twisted, lyricistical, mystical energy
when i'm flowin', i'm flowin' to blow it up
because i'm like gravy
huh, i got the sauce to get it done right
and achieve all there is that i want to be
individuality about myself
remainin' true and free and helpin' others in need
ain't no greed conquerin' my destiny
i live my life around
i control my future
i've controlled my past (oh)
try to keep my head clear to
i control my future
i've controlled my past
try to keep my head clear to achieve my goals at last
i control my future

i control my future

i control my future to achieve my goals at last
