

My Heart Can't Change

Taylor Dayne

I tried to work things out in my own way
I tried a thousand different ways to make you stay
'Cause you're the only one that I love, baby
(More than you will ever know)
And even if you must go, I'll still stay

Because my heart can't change
No, no, my heart won't change, change
You're my true love
And my heart can't change
No, no, something's don't change, change
Come back

Try to show you all the love, I was capable of
It wasn't enough
But now, I'm reaching out my hand
But understand you're in command
'Cause you're the only love one that I love, baby
And even if you must go, I'll still stay

Because my heart can't change
No, no, my heart won't change, change
You're my true love
And my heart can't change
No, no, something's don't change, change
Come back

But if you need me to go
Then I'm going, baby
I just need you to know
That you've change my life
I promise all the wrong I've done you, baby
I'm gonna make it right
Just give me a chance

Because my heart can't change
No, no, my heart won't change, change
You're my true love
And my heart can't change
No, no, something's don't change, change
Come back

Because my heart can't change
No, no, my heart won't change, change
You're my true love
And my heart can't change
No, no, something's don't change, change
Come back
