

Where Does That Boy Hang Out

Taylor Dayne

Where where where is he over there
Where where where is he over there
He's on the corner waiting (waiting)
Waiting for the right love to walk on by

He's on the look out he should cause
He's the one that that they take their lovin' from
When he looks down deep
Into their eyes, their knees start

To shakin' but much to their surprise
He gone, he's gone
He's done it again
Where does the boy hang out (hang out)

Their on the street dreamin' a lot
But dreams are trouble if they're caught
(Hang out, hang out)
Where does the boy hang out

They try to run away
Prayin' lookin' for the place
Where he won't be, he's on the make
And they tempt him, cause he's the one

They're gonna take their lovin' from
When he looks down deep
Into their eyes, their hearts start a beatin'
But much to their surprise

He's gone , he's done it again
Where does the boy hang out
(Hang out, hang out)
Where does the boy hang out

Where does the boy hang out
Why does he do it
Why must he do it
Don't he know that

He's a man just the same
Oh why he show it
Why don't he know it
That his words will always

Show 'em the way
The boy hangs out the boy hangs out
I said the boy can't help it
The boy hangs out, the boy hangs out

I say the boy can't help it
I'm gonna find him and tell him
That he don't have to prove anything to anyone
I'm gonna show him

That he's alright
And talkin' just as good as lovin'

Deep in the night
When he tells his story

So hard to resist
He's so slow talking
No need to be kissed
He's smooth, he's done it again

Where does the boy hang out
They're on the street, their dreamin' about
But dreams are trouble if they're caught
Where does the boy hang out

Where does the boy hang out
Standin' on the corner and he playin'
He's so smooth
Where does the boy hang out
