

Eternal Shadows

Tear Out the Heart

Here we are
Waiting in the shadows to make our mark
We've learned from our mistakes
We're reminded of our scars

When one door closes
Another's slammed in your fucking face
Now's the time
Here's the place

Despite everything
My eyes are open

[Chorus:]
It's better to light the way
Than curse us all with darkness
(With darkness)
The truth is what I've embraced
Now that my mind has adjusted
The truth has overtaken me

Here they are
Condemning us to shadows
And forcing us to see
It's hard to carry on
When no one else believes

When one door closes
Another's slammed in your fucking face
Now's the time
Here's the place

Despite everything
My eyes are open
Despite everything
My eyes are open

[Chorus:]
It's better to light the way
Than curse us all with darkness
(With darkness)
The truth is what I've embraced
Now that my mind has adjusted
The truth has overtaken me

It's hard to carry on
When no one believes
My eyes are open
Despite everything

Now's the time
Here's the place
Now's the time
Here's the place

[Chorus:]
It's better to light the way

Than curse us all with darkness
(With darkness)
The truth is what I've embraced
Now that my mind has adjusted
The truth has overtaken me

[Chorus:]
It's better to light the way
Than curse us all with darkness
(With darkness)
The truth is what I've embraced
Now that my mind has adjusted
The truth has overtaken me
