

# Love Me Tomorrow

Tech N9ne

Ya, You might not like some of the things I do, or the things I say, but guarantee you gonna love me tomorrow. For sho.  
She love she love me not  
But I'll never be all touchy lovey dovey for what he gots  
Suddenly kissy huggy what is for me the buddy slot  
But they callin on me to put it right in the open it could be an ugly stop  
Shes lookin to be caressed on the reg(cha)  
Fetched on the reg(cha)  
Sex on the reg  
only Techs on the bread  
With nothin bustin percussion and checks on the head  
As she huffin and puffin cause wasn't no Tech on the bed  
And she don't like that Tech N9ne persona  
Groupies more groupies for true the be juicy like John Belushi  
Like the one that do movies  
Man ay caramba you google me I'm beyond the boobies and champaignya  
Bumbaclot don't shrug me cause I'm the rapper but again you fond of a slacke  
r who's been on your love  
Peace and ya honor  
Just trusting can calm ya  
She stoned  
Now I'm home  
But she gon love me mañana  
Can't stand to hear my name or see my face  
But everytime she does she feels disgraced  
But she gon love me tomorrow (Love me tomorrow)  
Love me tomorrow (Love me tomorrow) x3  
What kind of fan are you  
Just because I expandin', bandin like soft music who's sayin' I do  
But I'll be damn if you slander who Tech Ninna  
My crew cannibals ain't no fan it  
You man who do a lot in a jam or two  
Said I'm a sell out cause I worked with Wayne  
First your brain need work  
You hurt the game  
Every lyric that blurst put the earth shame  
How do we burst to fame if both of our verse the same  
We supposed to be different  
You know that gifted  
Cause what we spit  
You know that we live it  
We grow cause we vivid  
You's a fair weather fan  
Your predictions will never stand  
Like you know something better than when I'm chopping  
Whatever man  
I told my fans, that, I told them this years ago. I said Tech will never go mainstream, mainstream will go Tech.  
I hear ya saying that I ain't the same  
But in order to grow you know you got to change  
But you gon love me tomorrow (Love me tomorrow)  
Love me tomorrow (Love me tomorrow) x3  
Here today but be gone when you blink an eye  
Constant drinking got you thinking and you about cry  
I was forsaken life taken and feel the pain  
Heart breakin body shakin can you stand the rain  
I was a friend of thee but treated like an enemy

But now I'm gone just a portion of your memories  
But in your memory remember this vividly  
There was no other villain from the hood real as me  
From the soil none loyal like the B.I.G.  
Homie from the show me hope thats how you 'member me  
And we'll soon see I ain't got long to be  
On this earth claiming turf running in these streets  
I apologize homie look me in my eyes  
Time to turn the page and be a man and swallow pride  
To many homies died before I got to say my piece  
So I just said piece and hopin that it brings us peace  
Today is gone and I left this place  
But I'll be the sun shining on your face  
So just love me tomorrow (Love me tomorrow  
Love me tomorrow (Love me tomorrow)
