

# Nowhere To Run

Technotronic

I'll never let you walk  
Away without a word to say  
Tell me your heart, pull it all out  
I'll try to understand

Cause this is not what you really need  
And this is not what you really want  
This is not the way it's supposed to go  
Tell me Baby no one will really know

There's nowhere to run, there's nowhere to hide  
You got to trust in me  
There's nowhere to run, there's nowhere to hide  
You got to trust in me

Don't feel ashamed to call my name  
Whenever you need a friend  
I will be there to pick you up  
When you're tumbling down

Cause this is not what you really need  
And this is not what you really want  
This is not the way it's supposed to go  
Tell me Baby no one will really know
