I Just Wanna Go Huntin

Ted Nugent

I just wanna go hunting baby

I was always different Nobody understood I didn't play "Follow The Leader" 'Cause I was always in the woods They hadn't invented peer pressure yet It seems I stood alone But my daddy had a vision Love, family and a home

Yeah but the punks used to laugh at me They said "How can you rock and not get high?" But I just stood my ground And I watched those [?] fall and die

'Cause I just wanna go hunting It makes me feel so good I just wanna go hunting Try to find me in the woods

Things're getting a little crazy In this day and age The concrete jungle warfare Has got everybody in a rage

I sure like a rock and danger And I crave my rock'n'roll But when I get my limit I know where to go

I like to jump in the four-wheel drive Load up the dogs and the family 'Cause I've got to feel alive With the wildlife where I can breathe

And I just wanna go hunting It makes me feel so good I just wanna go hunting Try to find me in the woods

Yeah I'm slipping away Looking for a new sunrise I'm feeling okay 'Cause it's times like this that make me healthy and wise

Oh, look out

Yeah, God told me in the bible He said "Go ahead and whack 'em, Ted" So I take my kids hunting So I don't have to hunt for my kids

I see 'em jump in the four-wheel drive Load up the dogs and the family And I got to feel alive With the wildlife where I can breathe I just wanna go hunting It makes me feel so good I just wanna go hunting Try to find me in the woods I just wanna go hunting It'll make that feeling last And if you don't like my hunting Then you can kiss my ass

I'm slipping away
I'm slipping away
I'm [?] my body weight
I got to get away everyday
I got to [?] my body weight
Cause I'm slipping away
I got the slipping way

Yeah yeah yeah
